TURKU AND ARCHIPELAGO

TRAVEL & EXPERIENCE

Turku is tucked away in the southwestern corner of Finland, just a two-hour road trip from Helsinki. Turku is not just a seaside city; it's the getaway to the Finnish Archipelago, an unparalleled natural wonder made up of 40,000 islands and counting. But here's the thing: even if you were to visit one island every day, and lived to be 100 years old, you'd be hard-pressed to squeeze them all in. So, where do you even begin?

The unique island villages, idyllic islands and twisting pines and smooth rock beaches. We'll take you to an authentic tour of the Turku Archipelago. You'll get to experience everything Turku has to offer over this four-day trip. This is a unique chance to see all the places you can't get to without a boat. You'll get to enjoy your journey stress-free while we take care of everything. You can spend your time relaxing and taking part in fun activities such as biking and hiking. You'll get to enjoy local cuisine and the Finnish sauna in all its glory. You'll be sure to return fully rested and energetic.

12.6. and 21.8.2023

We'll meet at Turku Bus Station at 9.30 am (charter bus platform no. 10) where the group will meet the tour guide at the bus. We'll drive from the city to the archipelago, to Parainen and then onwards to the beautiful countryside at Paraisten Portti. The journey includes one ferry crossing. At Paraisten Portti the group will meet a kayaking instructor and get into kayaks. We'll kayak our way through the archipelago and its beautiful vistas to the Pensar island. The kayaking will take approximately 5 hours. The route is secluded and travels between the islands. Lunch is served on a small island on the way. Let's enjoy the archipelago air, see white-tailed eagles and even seals. You can participate in the kayaking even without previous experience. The kayaking instructor will guide everyone in the techniques and safety involved in the beginning of the kayaking portion and will be there throughout to ensure our safety. Luggage will be transported to Pensar by car. We'll arrive at Pensar around 4 pm and will be

staying in the Klippan apartment. You'll have spare time in the afternoon to walk about Pensar island and eat at the restaurant. We'll also heat the sauna by the shore.

We'll be staying the night in the old coast guard station. There will be a presentation about the island, a chance to go to sauna and a dinner in the restaurant. Bodö used to have a coast guard station all the way up to 1991. After that the island was closed to the public and only opened in 2016. Most of the island is a dedicated nature reserve or national park. There's a nature path on the island you can take.

14.6. and 23.8.2023

After breakfast we set out on an adventure on the local islands, which might be the most well known in the whole archipelago. Our first stop is the neighboring island of Björkö, which is famous for having a lake on it. There's a nice nature trail (c. 3 km) circling the lake. The views from atop the rocks are amazing and the trail tips into the groves too. You can also swim in the lake. The stop on the island will last a few hours. Then we'll continue to Jurmo. This continuation

of Salpausselkä is one of the most enchanting islands on the Archipelago Sea. The rocky shores and the sandbars tell tales of the last ice age. The magnificent heather and juniper fields are distinctive to this place. We'll tour the island and have lunch in the Jurmo Inn. We'll also visit the Jurmo Chapel and the nature house. In the late afternoon we'll travel back to Bodö on the sailing boat Tacksamheten. When we get there, there'll be a sauna waiting, and you can eat at the restaurant at your leisure.

9.6.2023 and 18.8.2023

We'll meet at Turku Bus Station at 10.45 am (charter bus platform no. 10) where the group will meet the tour guide at the bus. We'll drive across beautiful countryside and towards the archipelago. We'll arrive at Kemiönsaari to the Svartnäs ferry pier at 2 pm and we'll go over in the ferry (10min) to the island of Högsåra. On Högsåra we'll spend the night at Byvillan, which used to be the dormitory for the local school. We'll be staying in fully renovated double rooms (shared bathrooms).

After the rooms have been given out, we set out to explore this idyllic island village with a long history of piloting ships through the archipelago and hosting Tsars' visits during summers. Stories of the village's history will be shared. Who was Kejsar-Fina, and why did the Tsar spend so many summers at Högsåra? A section of the island is a part of the Archipelago Sea National Park.

In the evening, the group will gather to eat at the most famous restaurant in the archipelago, Farmor's

Café. After that you'll have a chance to go to sauna and swim in the sea. The sauna is built into an old boathouse and is right by the sea.

10.6.2023 and 19.8.2023

A breakfast at the Farmor's Café. Today we are in for a sailing adventure; the yacht Eugenia is at the Högsåra pier waiting for the group to take us sailing. We take an old-fashioned sailing trip to the island of Öro, which is one of the most popular island destinations in the Archipelago Sea National Park. The sea winds fill our sails and we leave the hard work to the crew. You can participate in sailing the ship and learn about sailing and the history of peasant seafaring. You can also choose to rest, enjoy the sea, the atmosphere and the small islands gliding by. The sailing takes around 4 hours and coffee and pastries are served during the trip.

Öro is a unique and historical site in the southern part of the Archipelago Sea National Park. The island hides many secrets, and it has been closed to the public for a 100 years. The nature at Öro has been preserved and you can see many rare plant and animal species, endangered animals and traditional landscapes. Öro is one of the most popular national parks in Finland. In the evening we'll go to sauna and everyone has the opportunity to swim. The barrack restaurant is open and everyone can eat in their own time.

11.6.2023 and 20.8.2023

Breakfast in the barrack restaurant. You'll have time to walk or bike around the island in the morning. Find your favorite spot on Örö island! At noon we'll start our return trip to Kasnäs. The local shuttle boat will pick us up. We will stay on Kasnäs for a few hours, and you can go to the spa or have lunch or coffee in the new restaurant Kasnäs-paviljong, take the geological nature path or shop in the boutiques. Around 3 pm we get on the bus and travel 30 minutes to the village with the Dalsbruk Ironworks. The ironworks village has a long history starting at least as early as 1686, when the first iron foundry was built. The atmospheric buildings are mostly from the 1800's, and they are full of history. The rest of the buildings are from the late 1900's industrial era. The sea is an important part of the milieu, as well as Masuunjärvet, the oven lakes, near the heart of the village. There is enough time to walk around the lakes if you'd like. We'll be staying at Ullman's Villa, a very popular boutique hotel full of history. A dinner will be served for the group.

Lise Davidsen, opera gala / Turku Philharmonic Orchestra and conductor José Miguel Pérez-Sierra

Turku Music Festival 2023 is concluded by the amazing Lise Davidsen!

Lise Davidsen, who opened the Turku Music Festival in 2022 will be revisiting Turku in 2023. In addition to Lise Davidsen we'll get to enjoy the Turku Philharmonic Orchestra and conductor José Miguel Pérez-Sierra.

The Norwegian soprano Lise Davidsen's world domination started when she won the Plácido Domingo Operalia competition and the Queen Sonja competitions in 2015. Her debuts in Bayreuth, Aix-en-Provence and Glyndebourne Festivals, London Royal Opera House and Wigmore Hall, and the Byer and Vienna National Operas have garnered praise, and the Gramophone magazine in 2019 wrote of her, that Davidsen is "one of the best singer talents of the recent years, if not decades".

José Miguel Pérez-Sierra, one of the most notable conductors of his generation, debuted in 2005 at the helm of the Orquesta Sinfónica de Galicia and gained favor at the 2006 Rossini Opera Festival in Pesaro as the youngest conductor in the festival's history. He has since led the most notable orchestras of Spain, Italy, Portugal and Georgia conducting the operas of Rossini, Bellini, Puccini and Verdi.

Some of the numbers at the concert include arias from Verdi and Puccini.
